**Order your parts by calling
or visiting us in-store.**

The HTS Texas Parts Department provides unparalleled customer service and support for the dozens of manufacturers and hundreds of parts we proudly represent. HTS Texas offers **competitive pricing, highly-trained staff, and fully-stocked showrooms** with hard-to-find parts.

Our goal is to help reduce your equipment down time by providing you with replacement and warranty parts in a quick and timely manner.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

McQuay International: As a part of Daikin Industries, McQuay International delivers engineered, flexible solutions for commercial, industrial and institutional heating, ventilation, and air conditioning (HVAC) requirements with reliable products, knowledgeable applications expertise and responsive support.

Applied Comfort: Focused on designing and manufacturing class-leading, high-quality, energy-efficient Packaged Terminal Air Conditioners (PTACs from original OEM chassis specifications.

Aerofin: Standard and custom HVAC coils, including innovative "split-fit" coil for tough renovation coil replacements.

Armstrong Humidifiers: Conditioned steam, steam-to-steam, electric steam and gas-fired steam humidifiers to protect critical equipment and material in museums, manufacturing facilities, schools, office buildings and more.

Baldor: Designers and manufacturers of industrial electric motors, generators, and mechanical power transmission products.

Belimo: Global market leader in the development and production of actuators, control valves, and sensors.

Change'Air: Unit ventilators. Engineered excellence for greener classrooms.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

Dynamic Air Quality Solutions: Innovative, technologically advanced and affordable air quality solutions optimized to reduce energy consumption. Products include active media, sterile sweep UV and air purification systems.

Emerson: World-class manufacturer of AC and DC variable speed drives for commercial and industrial applications where performance, reliability and energy efficiency is required.

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

FAFCO: The world's largest manufacturer and innovator of polymeric heat exchangers, presents IceStor thermal energy storage systems.

Global Plasma Solutions: Provides patent pending, cold plasma air purification technology that can be used as a substitute for UV lights and carbon products.

Griswold: Coil Valve & Hose kit packages with or without Control Valves, with manual or auto balance valves.

Haakon Industries: Custom designed air handling units and packaged mechanical systems.

Heat Pipe Technologies: The most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

HTS Packaged Plants: Custom, high-quality packaged central plants built to your specifications for quick installation

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

Johnson Air Rotation: Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs, low operating costs, and tight temperature control.

Kinetics: Vibration isolation for equipment and acoustical solutions.

Legacy Chiller Systems, Inc: Process chillers for industrial/hospital applications.

Munters/DesChamps: Commercial line for economical solutions to humidity problems in all project sectors with desiccant dehumidifiers in all cfm ranges. DesChamps develops innovative solutions for energy recovery, outside air conditioning, improved indoor air quality, and air-to-air heat exchangers.

Permatron: Design and manufacture custom, high volume OEM air filtration parts or one-time effective air filter solutions.

Plasticair: Laboratory Exhaust Fans. Extensive lines of engineered FRP fans, scrubbers, Perchloric Acid Venturi fans, and high plume dilution fans.

PoolPak: A leader in providing indoor pool dehumidification for over 25 years.

Powrmatic: Air turnover units using high volume, low velocity air-circulation to distribute conditioned air to a large open spaces.

Stulz: Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

Tecogen: Natural gas driven chillers that provide building owners with a reliable, proven, efficient, and cost-effective alternative to conventional electric motor-powered chillers.

TowerTech: TowerTech's patented Modular Cooling Tower has been specified by more than a thousand discerning users who demand the greatest process efficiency and the best reliability and built-in redundancy.

TRIATEK: Offers a complete line of building control products that seamlessly integrate with most building automation systems.

United CoolAir: Custom unit manufacturer for small product applications. Chilled water, DX, heating units. Customizable solutions with indoor condensing units, vertical through-the-wall units, spot coolers and more.

UVDI: Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

Parts, Service & BAS

HTS Parts

Your # 1 Source for OEM and wholesales HVAC replacement parts.

HTS Service

We provide service, repair and replacement for all commercial HVAC systems.

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.

www.dxseng.com

DXS, our sister company, specializes exclusively in variable refrigerant flow (VRF) air conditioning and heating systems.
