Order your parts by calling
or visiting us in-store.

The HTS Texas Parts Department provides unparalleled customer service and support for the dozens of manufacturers and hundreds of parts we proudly represent. HTS Texas offers **competitive pricing, highly-trained staff, and fully-stocked showrooms** with hard-to-find parts.

Our goal is to help reduce your equipment down time by providing you with replacement and warranty parts in a quick and timely manner.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

McQuay International: As a part of Daikin Industries, McQuay International delivers engineered, flexible solutions for commercial, industrial and institutional heating, ventilation, and air conditioning (HVAC) requirements with reliable products, knowledgeable applications expertise and responsive support.

Applied Comfort: Focused on designing and manufacturing class-leading, high-quality, energy-efficient Packaged Terminal Air Conditioners (PTACs from original OEM chassis specifications).

AcoustiFLO: Manufacturers custom plenum fan solutions which are AMCA 210 and AMCA 301 certified. Provides a technological breakthrough in engineered flow path for plenum fans.

Aerofin: Standard and custom HVAC coils, including innovative "split-fit" coil for tough renovation coil replacements.

American ALDES: Premier manufacturer of ventilation products and systems for commercial applications. American ALDES products are designed for superior airflow control, energy-efficient performance, and a healthy indoor environment.

Apreco: Market leader in innovative design and supply of Air Pressure Control Vents and Stabilizers.

Baldor: Designers and manufacturers of industrial electric motors, generators, and mechanical power transmission products.

Belimo: Global market leader in the development and production of actuators, control valves, and sensors.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

Distech Controls: A global leader in building automation and energy management solutions, Distech Controls provides a complete and unified solution for HVAC, lighting, and access control.

Dynamic Air Quality Solutions: Innovative, technologically advanced and affordable air quality solutions optimized to reduce energy consumption.

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

FAFCO: The world's largest manufacturer and innovator of polymeric heat exchangers, presents IceStor thermal energy storage systems.

Global Plasma Solutions: Provides patent pending, cold plasma air purification technology that can be used as a substitute for UV lights and carbon products.

Haakon Industries: Custom designed air handling units and packaged mechanical systems.

Heat Pipe Technologies: The most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

Innovent: Custom manufacturer of commercial and industrial HVAC equipment including 100 percent outside air units, rooftop units, wheel and flat plate energy recovery units.

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

Johnson Air Rotation: Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs, low operating costs, and tight temperature control.

Krueger HVAC: A market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

Motivair: Leading supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

Munters/DesChamps: Commercial line for economical and innovative solutions to humidity problems, energy recovery, improved IAQ, and air-to-air heat exchangers in all project sectors with desiccant dehumidifiers in all cfm ranges.

Neptronic: With an emphasis on innovative thinking and design, Neptronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

PoolPak: A leader in providing indoor pool dehumidification for over 25 years.

Pro-Hydraulic Specialties: Offering a full line of Automatic & Manual flow devices along with flex hose connectors ranging from 1/2 inch to 2 inch and steel products from 2 1/2 inches to 14 inches all with a wide variety of configurations. The only HVAC manufacturer with a patented Auto Flow Limiter that can measure flow.

REYMSA: CTI Certified and non-corrosive all-fiberglass cooling towers.

RAE Coils: Their strong focus on quality is evident by products that meets your dimensions, performs according to your specifications, and arrives on time. Their quality control is not a "department," it is a way of doing business.

Siemens Control: Open-protocol DDC Controls System with standard Internet access capabilities and full range of DDC Controllers for system configuration flexibility.

Stulz: Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

Tecogen: Natural gas driven chillers that provide building owners with a reliable, proven, efficient, and cost-effective alternative to conventional electric motor-powered chillers.

TRIA TEK: Offers a complete line of building control products that seamlessly integrate with most building automation systems.

Twin City Fans & Blowers: An industry leading designer and that offers centrifugal fans and blowers, axial fans, and power roof ventilators.

United CoolAir: Custom unit manufacturer for small product applications. Chilled water, DX, heating units. Customizable solutions with indoor condensing units, vertical through-the-wall units, spot coolers and more.

UVDI: Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

Valent: Manufacturer of high-outdoor air packaged rooftop systems designed to address the needs of building owners, specifying engineers, and installing contractors.

Viessmann: One of the world's leading manufacturers of heating, industrial and refrigeration systems.

Parts, Service & BAS

HTS Parts

Your # 1 Source for OEM and wholesales HVAC replacement parts.

HTS Service

We provide service, repair and replacement for all commercial HVAC systems.

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.

www.dxseng.com

DXS, our sister company, specializes exclusively in variable refrigerant flow (VRF) air conditioning and heating systems.
