Heat Transfer Solutions

Daikin AC: World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. efficiency R-410a systems. DX line sizing software available.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

Aerofin: Aerofin is a leading manufacturer of spiral fin and plate fin heat exchanger coils and related heat transfer equipment.

Accutrol: Accutrol specializes in the manufacturing and distribution of innovative airflow technologies for critical environment airflow control and airflow measurement. The features and benefits of their award winning products make them the choice of many of the world's most prestigious and demanding clients.

AcoustiFLO: Manufacturers custom plenum fan solutions which are AMCA 210 and AMCA 301 certified. Provides a technological breakthrough in engineered flow path for plenum fans.

American ALDES: American ALDES Ventilation Corporation is the premier manufacturer of ventilation products and systems for commercial applications. American ALDES products are designed for superior airflow control, energy-efficient performance, and a healthy indoor environment.

Apreco: Apreco Limited is the market leader in innovation design and supply of Air Pressure Control Vents and Stabilizers used in applications throughout hospitals, in operating theaters, cleanrooms, for gas fire suppression and protected fire routes as well as specialist applications.

Big Ass Fans: The world's leading researcher, designer and manufacturer of HVLS (High Volume Low Speed) fans focused on delivering purpose-built, cost-effective, energy-efficient commercial & industrial comfort solutions.

VRF air conditioning system
design, installation & service

Daikin AC: Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.

HTS Service

We provide service, repair and replacement for all commercial HVAC systems!

CORE Energy Recovery Solutions: High performance Energy Recovery Ventilator (ERV) Cores for the Heating, Ventilation and Air Conditioning (HVAC) industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

Distech Controls: A global leader in building automation and energy management solutions, Distech Controls provides a complete and unified solution for HVAC, Lighting, and Access control.

Dynamic Air Quality Solutions: Innovative, technologically advanced and affordable air quality solutions optimized to reduce energy consumption. Products include active media, sterile sweep UV and air purification systems.

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

FAFCO: The world's largest manufacturer and innovator of polymeric heat exchangers, presents IceStor thermal energy storage systems. IceStor integrates with new or existing AC systems to generate immediate cost savings and long-term protection against rising energy costs.

Güntner: A leading manufacturer in heat transfer technology. The Güntner Group stands for innovative and efficient products. ****Only available in Dallas****

Global Plasma Solutions: GPS provides patent pending, cold plasma air purification technology that can be used as a substitute for UV lights and carbon products, but without the replacement costs and maintenance associated with those systems. GPS when used in combination with ASHRAE Standard 62 IAQP, allows a reduction in outside air by up to 75% in new and retrofit applications.

Haakon Industries: University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

Halton: Specializes in indoor climate and indoor environment products, services and solutions for commercial kitchens. Halton's aim is to create comfortable and safe indoor environments that have energy-efficient and sustainable life cycle.

Heat Pipe Technologies: Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

Innovent: Custom manufacturer of commercial and industrial HVAC equipment including 100 percent outside air units, rooftop units, wheel and flat plate energy recovery units, gas heat and cooling, UL listed electric heat, all aluminum units or other special casing construction and sectionalized equipment.

Johnson Air Rotation: Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs. Low operating costs. Tight temperature control. Guaranteed.

Krueger HVAC: Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

Motivair: Motivair is a leading supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

Neptronic: With an emphasis on innovative thinking and design, Nepronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

Pro-Hydronic Specialties: Offering a full line of Automatic & Manual flow devices along with flex hose connectors ranging from 1/2 inch to 2 inch and steel products from 2 1/2 inches to 14 inches all with a wide variety of configurations. The only HVAC manufacturer with a patented Auto Flow Limiter that can measure flow.

PoolPak: A leader in providing indoor pool dehumidification for over 25 years.

RAE Coils: RAE Coils has a strong focus on quality. This is evident by a product that meets your dimensions, performs according to your specifications, and arrives on time. Their quality control is not a "department," it is a way of doing business.

Siemens Control: Open-protocol DDC Controls System with standard Internet access capabilities and full range of DDC Controllers for system configuration flexibility. Has a full line of Siemens Building Technologies HVAC products.

Stulz: Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

Tecogen: Natural gas driven chillers that provide building owners with a reliable, proven, efficient, and cost-effective alternative to conventional electric motor-powered chillers.

Tranter: Tranter is a global engineering and manufacturing company specializing in thermal management. Tranter provides the world's largest range of Plate Heat Exchangers and Welded Heat Exchangers. ****Only available in Dallas****

Twin City Fans & Blower: Twin City Fans & Blower is an industry leading designer that offers centrifugal fans and blowers, axial fans, and power roof ventilators.

UVDI: Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

Valent: Manufacturer of premium-quality, high-percentage outdoor air, energy-efficient packaged rooftop ventilators. Constructed with premium features to reduce energy consumption, increase control over occupant comfort, and lengthen service life.

Viessmann: One of the world's leading manufacturers of heating, industrial and refrigeration systems. Viessmann's comprehensive range offers individual solutions and efficient systems for all application areas and fuel types.
