INTRODUCTION

WE KNOW PARTS

The HTS Ontario Parts Department operates with unparalleled customer service and support for the dozens of manufacturers and hundreds of parts we proudly represent. We are problem solvers; we will find the part from any manufacturer that your equipment requires.

As the official Daikin Applied OEM Parts Distributor, HTS offers competitive pricing and the best trained staff who are ready to provide timely solutions for our customers’ maintenance and repair needs. In addition to accessing hard-to-find parts, we maintain fully-stocked parts showrooms in Toronto, Ottawa, London, and Etobicoke.

OUR PROMISE

As the parts department, we are committed to the individual success of all those involved in a project’s HVAC system selection, design, purchase, installation, and maintenance.

WE MAKE IT EASY

Our goal is to help reduce your equipment downtime by providing you with replacement and warranty parts in a quick and timely manner. Order your parts by calling our direct lines, visiting one of our locations, or by emailing parts@hts.com

01 Introduction
Why HTS? OEM Parts Provider

02 Replacement Equipment
PTAC’s, Fan Coils, Heat Pumps, Heating, Splits & VRV, Air Curtains, Hot Water Tanks

03 OEM Parts
Applied Comfort, Napoleon, Daikin, Omega, Sigma, Schwank, Modine, PVI, Loren Cook, DriSteem, Nu-Calgon

04 Parts
Motors, Compressors, Service Tools, Cleaners & Chemicals, Hoses & Accessories, Refrigerants, Thermostats, Electrical, Belts, Fan Coil Parts

05 General
Line Sheet, Locations
INTRODUCTION

Canada’s **LARGEST** supplier of Daikin Applied OEM parts.
Applied Comfort is focused on designing and manufacturing class-leading, high-quality, energy-efficient Packaged Terminal Air Conditioners (PTACs) from OEM chassis specifications with premium components.

DMQ Series
- 32” wide
- Premium component design with digital controls
- Front desk and emergency management system ready
- Switchable to 24V remote thermostat

i42 Inverter
- State-of-the-art INVERTER technology fits in standard 16”x42” PTAC sleeves
- Energy savings of up to 30%
- Reduced operation sound levels
- Modulating INVERTER technology ensures consistent dehumidification and highest efficiency

Type K Replacement
- 36”, 36.5” wide
- Innovative replacement for all three sections of original legacy chassis
- Class-leading energy performance
- Electronic touch-pad controls switchable to wall thermostat and EMS
- Direct slide-in to existing wall sleeve

Series 16/AAF/PNES Replacement
- 37.5”, 41.5” wide
- Class-leading efficiency
- Quiet operation
- Commercial-duty construction and premium components

Calm 42 Series
- 42” wide
- Universal heater design (U42), fixed-amperage (C42), and innovative INVERTER models (i42)
- Class-leading efficiency
- Quiet indoor sound
- Electronic temperature limiting

EA Series
- 45” wide
- Commercial-duty, quiet high-static pressure for ducting
- Class-leading efficiency
- Quiet operation
- High-quality performance and premium components
- Easy installation

CDF Series
- Exact Chromalox™ replacements, 44” wide
- Heavy-duty components and materials for superior performance and durability
- High-energy efficiency
- Long reliable service life

RS Series
- 45” wide
- High-performance design
- Class-leading efficiency
- Quiet operation
- Commercial-duty, durable premium components

*Availability varies by location, please call your local store.
Napoleon has led the way with new and innovative, patented technology that continuously surpasses industry standards. The heating and cooling systems are engineered to a high level, and are quiet, efficient, and noticeably comfortable.

**Condo Pack**

Designed for conventional thru-wall installation applications and is the most effective choice with pre-wired and pre-charged dual sliding chassis. The Condo Pack has easy installation and maintenance for both heating and cooling units.

**Benefits and Advantages:**
- Furnace efficiency up to 96.8% AFUE and 90% thermal efficiency
- Tubular stainless steel primary and secondary heat exchanger
- NEW 11 EER ratings with R-410A refrigerant
- Natural gas or propane
- Blower dynamically balanced with resilient motor mounts for noise reduction and smooth operation
- Independent metering and temperature control
- Direct vent design eliminates the need for a chimney
- Exterior condensate drain for ease of service
- Fully insulated cabinet for clean and quiet operation
- Three piece design allows for individual component handling for easy installation and serviceability
- Wall sleeve (optional) can be installed separately during building framing for easier and cleaner installation
- Entire unit is factory tested before shipment

**ThinLine horizontal and vertical units**

- **Flexible valve and piping options:** standard selectable, factory mounted, and normal closed/open, on/off, modulating (horizontal and vertical units)
- **Configuration options:** exposed, concealed, and recessed (horizontal units)/flat top, sloped top, and hide-away (vertical units)
- **Dial options:** cupola white, off-white, antique ivory, putty beige, soft gray, and custom (custom horizontal unit only)
- **Grille options:** stamped or multi-directional outlet grilles, and return grille (horizontal and vertical units)
- **Extended end pocket options:** 4” or 8” each side (horizontal and vertical units)
- **Controller options:** MicroTech® III, 3-speed switch or low voltage, analog or digital t-stat, remote or unit mounted, and 3-speed or staged fan (horizontal and vertical units)
- **Electric heat options:** single point power connections, and total or auxiliary heat (horizontal and vertical units)
- **Fan motor options:** 4 high-efficiency ECMs, and standard efficiency PSC motor (horizontal and vertical units)
- **Primary/secondary drain pan options:** sloped/polymer, easily removable, and noncorrosive plastic or stainless steel (horizontal and vertical units)
- **Coil options:** (horizontal and vertical units)
  - 2, 3, or 4-row main
  - 1 or 2-row preheat or 1-row reheat
  - Hot water or steam
  - Same or opposite end connections
  - Multiple circuit selections

**ALL ITEMS IN STOCK**

*Availability varies by location, please call your local store.*
Heat Pumps

Omega Heat Pumps provides all in one heating and cooling solutions for residential and commercial applications. Founded in 2006, the company continues to expand its product offering to meet the rigorous requirements for green, quiet, and comfortable heating and cooling.

Omega HRP Series (Enerzone Replacement)
- 3/4 tons - 2 1/2 tons
- OEM replacement for true form, fit and function
- Comes standard with High and Low pressure safety switches, and water coil freeze protection
- Each unit is factory tested and charged with R-410A refrigerant
- Optional auto shut-off control valve to disable water flow through the unit when there is no call for compressor
- Optional auto-flow balancing valves for maintaining nominal water flow rate through unit

Omega VI (Whalen Replacement)
- 3/4 tons - 2 tons
- Plug-n-play matching power and control harness connections for quick installation
- Double isolated compressor base and high efficiency R-410A compressors for quiet operation
- High and low pressure safety switches standard on all models
- Thermostatic Expansion Valve (TXV) for accurate refrigerant metering
- Optional auto shut-off control valve to disable water flow through the unit when there is no call for compressor
- Optional auto-flow balancing valves for maintaining nominal water flow rate through unit

Omega 816 (Climate Master Replacement)
- 3/4 tons - 3 tons
- "M" control option comes with matching 9 pin harness to mate with existing ClimateMaster "M" controls
- Omega electrical package kit mounted in electrical box and replacing all controls with new controls including a full featured advanced microprocessor controller

HCA Series (McQuay Replacement)
- 3/4 ton - 2 tons
- Complete electrical box kit with full featured advanced microprocessor controller to replace existing electrical box and all controls
- High and low-pressure safety switches, entering and leaving water temperature sensing for pre-emptive detection of water flow issues, and condensate overflow switch comes standard
- Each unit is factory tested and charged with R-410A refrigerant
- Optional auto shut-off control valve to disable water flow through the unit when there is no call for compressor
- Optional auto-flow balancing valves for maintaining nominal water flow rate through unit

VF Series (Replacement for Singer/McQuay Series VF/VP/VG Units)
- 3/4 ton - 3 tons
- Each unit comes with R410A refrigerant and is fully factory tested before shipment
- Easy monitoring of controller board LED display status and quick diagnostic fault detection
- Advanced microprocessor controller continuously monitors operation of the unit for fault-free start-ups and optimal operation
- Optional auto shut-off control valve to disable water flow through the unit when there is no call for compressor
- Optional auto-flow balancing valves for maintaining nominal water flow rate through unit

VSCS Series (Johnson Controls Replacement)
- 3/4 tons - 2 1/2 tons
- Direct replacement and upgrade for the Johnson Controls VSCS chassis units
- High and low pressure safety switches, water coil freeze protection, and double isolated compressor base
- Optional auto shut-off control valve to disable water flow through the unit when there is no call for compressor
- Optional auto-flow balancing valves for maintaining nominal water flow rate through unit

*Availability varies by location, please call your local store.
Daikin designed the first complete line of water source heat pumps with high efficiency, outstanding reliability, and quiet operation for individually zoned comfort control in commercial, institutional, and industrial buildings.

**Enfinity™ Console In-Room**
- 1/2 ton - 1.5 ton
- Models MHC and MHW
- R-410A refrigerant
- Exceeds ASHRAE 90.1 efficiency standards by up to 35%
- High efficiency reduces energy consumption and operating costs

**Enfinity™ Horizontal Ceiling Mounted**
- 1/2 ton - 10 ton
- Model CCH standard range
- Model CCW geothermal range
- Non-CFC, R-410A refrigerant
- High efficiency reduces energy consumption and operating costs

**Smartsource® Compact Vertical Water Source**
- 1/2 ton - 6 ton
- Model GCV
- Small footprint for easy replacement of most WSHPs
- Dehumidification for increased occupant comfort
- Low operating costs, easy installation, and quick serviceability

**SUH Unit Heaters**
- Horizontal and vertical propeller unit heaters feature a wide performance range for both hot water and steam applications
- Side entry coil connections on model H units permit installation in clearance-critical low ceiling environments
- Special coils constructed with 0.032” wall Cu-Ni tubes or 0.049” wall copper
- Designed for maximum airflow and optimum air distribution, outlet temperatures are reduced and avoid “hot spots”
- Standard units have 12 FPI fin series for enhanced performance
- Equipped with horizontal louvers for simple vertical air distribution adjustment
- Optional louver fin diffusers permit enhanced air distribution adjustment with either a wide spread of warmth or focused warm air for greater unit throw

*Availability varies by location, please call your local store.*
Schwank is the world leader in infrared radiant heating. They’ve sold over 2 million units to more than 150,000 customers in 40 countries because they deliver exceptional energy savings, product quality, environmental performance and service and support. As a result, modern Schwank infrared heating is replacing conventional forced air and hydronic heating systems the world over.

Luminous Heaters

supraSchwank - The most efficient industrial and commercial radiant heater with up to 65% energy savings.

These overhead luminous gas heaters can be mounted on ceilings up to 180 feet (50m) and still provide superior comfort and temperature levels.

Heater Models Available [input/length]:
- 29,500 BTU/h - 23.87”
- 59,000 BTU/h - 45.75”
- 118,000 BTU/h - 45.75”
- 44,000 BTU/h - 34.60”
- 88,500 BTU/h - 67.50”

primoSchwank - Powerful and energy efficient

Designed specifically for industrial and commercial spaces with high ceilings up to 180 feet (55m) with one of the best efficiency ratings in North America. Capable of converting up to 88% of the gas input into radiant energy.

Heater Models Available [input/length]:
- 37,500 BTU/h - 23.75”
- 75,000 BTU/h - 45.62”
- 150,000 BTU/h - 45.62”
- 56,000 BTU/h - 34.50”
- 113,000 BTU/h - 67.32”

ecoSchwank - Efficiency, economy, and performance

Designed for industrial and commercial use. Clean and efficient radiant heaters with the highest efficiency rating in North America. Capability to heat large spaces with high ceilings while minimizing operation costs.

Heater Models Available [input/length]:
- 21,500 BTU/h - 50,000 BTU/h - 100,000 BTU/h - 200,000 BTU/h*
- 35,000 BTU/h - 65,000 BTU/h - 150,000 BTU/h*

*Double burner model; each burner has a dedicated flame sensor for maximum safety.

Radiant Tube Heaters

ultraSchwank - The most efficient commercial & industrial tube heating solution in North America.

Ideal for use in commercial or industrial facilities that demand heavy duty heating applications such as warehouses and manufacturing facilities. 56% to 62% radiant efficiency (*based on gross caloric value; EN-419 test) *ANSI/CSA standard requires of 35% radiant energy

Heater Models Available [input/length]:
- 60,000 BTU/h - 20’, 30’
- 90,000 BTU/h - 30’, 40’
- 160,000 BTU/h - 50’, 60’
- 200,000 BTU/h - 60’, 70’

premierSchwank - High comfort indoor radiant heaters with low fuel costs

Provide quiet and clean heating solutions and have rightfully earned its title as the indoor radiant heater with the best efficiency rating in North America when compared to other non-insulated tube heaters.

Heater Models Available [input/length]:
- 45,000 BTU/h - 20’
- 100,000 BTU/h - 20’
- 150,000 BTU/h - 40’, 50’, 60’
- 60,000 BTU/h - 20’, 30’
- 110,000 BTU/h - 30’, 40’, 50’
- 175,000 BTU/h - 50’, 60’, 70’
- 80,000 BTU/h - 20’, 30’, 40’
- 130,000 BTU/h - 30’, 40’, 50’
- 200,000 BTU/h - 50’, 60’, 70’

builderSchwank - Ideal for indoor applications

One of the most economical radiant tube heaters on the market for spot heating distribution and production facilities. Built using Schwank’s low cost heating system design to provide comfort and a quick payback period.

Also available in 2-stage [SET] model

Dual firing rate capability for controlled comfort

The 2-stage heating system lowers energy consumption and increases equipment life by reducing ON/OFF cycles. The dual firing rate allows for a controlled comfort level with a high intensity and low intensity heat setting to provide more or less heat when required.

Both models are available in P40 Pre-Assembled U-Tube Model

Single Stage Heater Models Available [input/length]:
- 45,000 BTU/h - 20’
- 60,000 BTU/h - 20’, 30’
- 80,000 BTU/h - 20’, 30’, 40’, 45’
- 100,000 BTU/h - 20’
- 110,000 BTU/h - 30’, 40’, 50’
- 130,000 BTU/h - 30’, 40’, 50’
- 150,000 BTU/h - 40’, 50’, 60’
- 175,000 BTU/h - 50’, 60’, 70’
- 200,000 BTU/h - 50’, 60’, 70’

2-Stage Heater Models Available [input/length]:
- 80,000/60,000 BTU/h - 20’, 30’
- 110,000/75,000 BTU/h - 30’, 40’
- 130,000/90,000 BTU/h - 30’, 40’
- 155,000/110,000 BTU/h - 40’, 50’
- 175,000/110,000 BTU/h - 40’, 50’
- 200,000/140,000 BTU/h - 50’, 60’

Note: Radiant efficiencies are third party tested.
Modine Manufacturing Company has led the way in thermal management since 1916 designing, manufacturing, and testing heat transfer products for a wide variety of applications and markets.

Natural/Propane Gas Unit Heaters

Hot Dawg Low Profile Unit Heater (HD/HDB)
- Input ranges from 30,000 to 125,000 BTUs and can operate on natural or propane gas
- Ideal for residential garages and workshops, along with light commercial or industrial applications
- Hush-puppy quiet operation
- 115V, 16 hertz, single phase
- Lightweight, easy installation 1” from ceiling

Separated Combustion (PTS/BTS, HDS/HDC)
- Input ranges from 30-125 MBH and can operate on natural or propane gas
- Specifically designed for environments with hostile atmospheric conditions, such as chemicals, high humidity or negative pressure
- Swept wing fan on sizes from 100,000 to 200,000 BTU/hr for superior airflow and noise reduction
- Same-size vent and combustion air inlets throughout product line makes installation easier
- Longer allowable vent lengths (up to 50’ vs 30’)

Vertical Power Vented (PDP/BDP)
- Input ranges from 150,000 to 400,000 BTU/hr
- The PDP (propeller) and BDP (blower) High Efficiency II gas-fired unit heaters are inexpensive to install, easy to use, and offer excellent in-service economy
- 80% thermally efficient, maximizing seasonal efficiency
- Power exhaust can be rotated 180°, can be vented vertically or horizontally
- Safety-pressure switch to assure safe venting conditions

Duct Furnaces

Indoor Gravity Vented (DFG) - ETL certified
- Input ranges from 75,000 to 400,000 BTU/hr and can operate on natural or propane gas
- Designed to be an economical choice for use with a building’s heating, heating/cooling, and make-up air systems
- 80% thermally efficient
- Blocked vent safety switch
- 115V control step down transformer with 24V gas controls
- 20 gauge aluminized steel cabinet
- Certified to 3.0” W.C. external static pressure
- Right side access to burner and gas controls with slide-out burner drawer

Outdoor Duct Furnace (HFG/HFP)
- Input ranges from 75,000 to 400,000 BTU/hr and can operate on natural or propane gas
- Designed for use with a building’s heating, heating/cooling, and make-up air systems
- All units a minimum of 80% thermally efficient
- 115V control step down transformer with 24V gas controls
- 18 gauge aluminized steel cabinet with a baked-on polyester powder finish on exterior casing parts
- Certified to 3.0” W.C. external static pressure

Indoor Separated Combustion (DFS) - ETL certified
- Input ranges from 75,000 to 400,000 BTU/hr and can operate on natural or propane gas
- Designed for use with a building’s heating, heating/cooling, and make-up air systems with hostile atmospheric conditions, such as high humidity or negative pressures
- All units a minimum of 80% thermally efficient
- 20 gauge aluminized steel cabinet
- Certified to 3.0” W.C. external static pressure
- Separate electrical, venting, and gas control access with fully gasket-installed doors

**Outdoor Units**

**Daikin VRV system** is a multi-split type air conditioner for commercial buildings that uses variable refrigerant flow control developed by Daikin to provide customers with the ability to maintain individual zone control in each room and floor of a building.

**VRV IV**

**Heat Pump**
- Total comfort solution for heating, cooling, ventilation and controls
- Energy efficiency values (IEER) up to 28.0
- Incorporates VRV IV standards and technologies such as variable refrigerant temperature and all inverter compressors
- Best-in-class warranty with 10-year compressor and parts limited warranty as standard

**VRV IV-S**

**Air-Cooled**
- Available in 3, 4 and NEW 5 ton modules
- Increase in efficiency up to 18 SEER & 10.5+ HSPF
- Year round comfort and energy savings delivered by VRT technology
- Broader diversity with ability to connect up to 9 indoor units
- Space saving design with under 39”** height. Over 25% smaller as compared to VRV III-S
- Easier to install with over 39% weight reduction vs VRV III-S
- Low sound levels for comfort
- Higher reliability with Daikin’s swing compressor
- Dependable operation in extreme ambient conditions up to 122°F
- Added safety and peace of mind with optional auto changeover to auxiliary heat
- Backed by a best in class 10-Year Parts Limited Warranty

**VRV Aurora**

**VRV AURORA Heat Pump and Heat Recovery**
- VRF Industry’s first air-cooled system that delivers heating capacities down to -22°F (-30°C) as standard
- Daikin’s inverter based vapor injection compressor is designed to deliver heating capacity of up to 100% of nominal at 0°F (-18°C), up to 85% of nominal at -13°F (-25°C) and up to 60% of nominal at -22°F (-30°C)
- Year round comfort and energy savings with Variable Refrigerant Temperature technology (VRT)
- Refrigerant-cooled efficient and stable inverter board operation, independent of ambient conditions
- Heat recovery models designed to provide continuous heating during defrost and oil return**

**VRV IV X**

**Heat Recovery**
- Fully integrated solution with heat recovery offers high efficiencies with IEER values up to 29.3
- Perfect personal comfort for guests / tenants via simultaneous cooling and heating
- Total comfort solution for heating, cooling, ventilation, and controls
- Perfect personal comfort for guests / tenants via simultaneous cooling and heating
- Incorporates VRV IV standards and technologies such as variable refrigerant temperature and all inverter compressors
- Unique range of single and multi-port branch selector boxes
- Heating function down to -13°F ambient air temperature
- Daikin VRV IV is the first variable refrigerant flow (VRF) system to be assembled in North America
- Space-saving with ability to connect multiple gas furnaces to one outdoor unit with 14 selectable settings

*Complete warranty details available from your local HTS representative or online at www.daikincomfort.com
VRV IV

VRV T-Series Water Cooled Condensing Unit Heat Pump/Heat Recovery

- Flexible System design with increased diversity up to 150%†
- Can be applied to both geothermal and boiler/tower applications as bstandard with condenser water inlet temperature as low as 14°F† in heating and 23°F† in cooling is possible
- Triple-stack capable to deliver up to 36 tons in just under 10.5 feet ceiling height thanks to the compact design
- Engineered with heat rejection cancellation technology to eliminate mechanical room conditioning requirements
- 2-9V variable water flow control logic as standard to increase waterside system operational efficiencies
- Drop-down switch box for easy service to key components
- Field selectable top or front refrigerant connections for flexible and easy installation

VRV Fit

VRV Fit

- The Daikin Fit system is a side discharge, smart HVAC system that won’t compromise on comfort and connects to ducted solutions traditional to the unitary market.
- Perfect alternative to the traditional cube style unitary products in a 1:1 application
- Install using existing ductwork and existing line sets
- Space-saving low profile trunk style outdoor unit for easy carrying and installation in tight spaces
- Inverter (variable-speed) Compressor for Ideal indoor comfort and efficiency
- Quiet-mode provides enhanced acoustical comfort
- Blue Fin Coat for long condenser coil life and reliability

VRV Life

VRV Life

- Dependable heat pump operation in extreme ambient conditions down to -4°F in heating mode and up to 122°F in cooling mode
- Year-round comfort and energy savings delivered by combining VRV and VRT technologies compared to traditional split systems
- Operation with sound levels of under 58 dBa1 make for easy install close to lot lines
- Engineered with Daikin’s swing Inverter compressor technology

- Precision engineered for flexibility, zoning, low sound and space saving, with the ability to mix and match ducted and duct-free indoor units in combination with a gas furnace.
- Ability to choose heat pump or multi-zone Dual-Fuel2 heating capability
- Auto and programmable modes for heat pump to gas heat switch over temperatures
- Compatible with 12 types and 65 models of Daikin VRV indoor fan coil units and 80 – 97% AFUE Daikin up fow and down fow communicating gas furnaces

Air Curtains

*Availability varies by location, please call your local store.

SchwankAir Curtains create an effective seal by re-circulating the facility air in a smooth laminar flow across an open doorway. This creates an air seal, like a waterfall, that prevents leakage of air between two areas with different pressure and climate. The more laminar this air flow, the harder it is for outside air, insects, or dust to penetrate the air curtain.

SchwankAir 2000 Series
- Available in ambient, electric, and water models for any type of application
- 208V, 230V, 480V, and 600V models
- All units are available in optional heated models and recessed air curtain models
- Wall brackets and ceiling mounting points supplied for surface mount units
- SchwankAir wired controller and door switch included
- Easily mounts on any door up to 10 feet high to create air seals that keep conditioned air in the building and dust, dirt, and insects out

SchwankAir 2500 Series
- Available in ambient, electric, and water models for any type of application
- 208V, 230V, 480V, and 600V models
- All units are available in optional heated models and recessed air curtain models
- Wall brackets and ceiling mounting points supplied for surface mount units
- SchwankAir wired controller and door switch included
- Easily mounts on any door up to 11.5 feet high to create air seals that keep conditioned air in the building and dust, dirt, and insects out & boasts a higher CFM for a more efficient air seal

SchwankAir 500 Series
- Available in 208V models
- All units are electric heated models
- 2-Stage heat settings
- Easily mounts on any drive-thru window to create an air seal to keep conditioned air in the building and keep dust, dirt, and insects out

SchwankAir 1200 Series
- High and low air flow setting at the push of a button
- Automatic activation ready: Unit comes with a magnetic door switch to automatically turn on and off when the door opens and closes
- Easy installation: Mounting brackets included
- Remote control and magnetic door switch included
- Door Heights: Up to 9 feet

PVI specializes in medium to large capacity ASME water heaters for commercial and institutional buildings, including schools, hotels, hospitals, dormitories, apartments, correctional facilities and military barracks.

**CONQUEST® Condensing Gas Water Heater**

CONQUEST is a small footprint, fire tube, condensing storage water heater featuring a submerged combustion chamber and spiraled array of fire tubes fabricated entirely from AquaPLEX.

- 199 - 250 - 299 MBTU in a 100 gallon tank
- 399 - 500 - 600 - 700 - 800 MBTU in a 130 gallon tank
- Up to 97% thermal efficiency from 40°F to 140°F at full rate (4.4°C to 60°C)
- Part load efficiency up to 99% with modulating models
- Meets ASHRAE 90.1
- Heaters qualify for LEED certification
- Natural gas or LP gas
- Touch-screen operating control with plain text status and fault diagnostics

Tank and heat exchanger are constructed from AquaPLEX duplex stainless steel. Naturally immune to aqueous corrosion, the heater requires no tank linings or anode protection of any type.

AquaPLEX tank and heat exchanger come with a 15 year warranty. Tank warranty covers leaks, production of discolored/rusty water, chloride stress corrosion cracking, condensate corrosion or defects in material or workmanship. **One-year parts warranty.**

- **Max. SP:** 1”

---

**Quality Tested**

Made in the USA in an ISO 9001 certified factory. Tested in COOK’s AMCA registered laboratory in accordance with AMCA standards.

GC sizes 128, 222 & 242 are ENERGY STAR® certified products. All units are listed by Underwriters Laboratory (UL 705) and UL listed for Canada (cUL 705). GC and GN 126-188 are UL 507 and cUL 507 listed.

GN sizes 200 through 2000 series units are available with UL 1995 listing (Heating & Cooling Equipment) and cUL 1995 listing for Canada. When a Gemini 200-2000 unit is supplying a separate modular cooling or heating source, UL 1995 listing may be required by local code.

**= ENERGY STAR® Certified**
DRISTEEM designs and manufactures humidification systems to meet unique humidification requirements. DRISTEEM has earned a reputation as the humidification experts by supporting customers’ unique commercial, healthcare, industrial, and process-critical applications for more than 50 years.

**XT Series Electrode Humidification System**
- Vapor-logic® 4 controller included with Model XTP and optional ModBus®, BACnet®, and LonTalk® interoperability
- Model XTP capacity range from 5 to 287 lbs/hr (2 to 130 kg/h) and Model XTR capacity range from 5 to 11 lbs/hr (2 to 5 kg/h)
- Control to ±3% RH
- Designed for easy installation and minimal maintenance

**GTS® Gas-to-Steam Humidification System**
- Vapor-logic® 4 controller with: web-enabled remote access, ModBus®, BACnet®, and LonTalk® interoperability
- Capacity range to 600 lbs/hr (272 kg/h) for each unit; link up to 16 units for capacity up to 9,600 lbs/hr (4,352 kg/h)
- Control to ±3% RH, steam output range-ability up to 40:1
- Low nitrogen oxide (NOx) emissions of less than 20 ppm
- Up to 84% burner efficiency rating
- Designed and tested to meet AIR-640 humidification standard, CSA, AGA, CGA approved for sealed combustion

**STS® Steam-to-Steam Humidification System**
- Vapor-logic® 4 controller with: web-enabled remote access, BACnet®, and LonTalk® interoperability
- Capacity range up to 1600 lbs/hr (726 kg/h)
- Control to ±3% RH
- Electronically monitored water level ensures safe and reliable operation
- Ultra-sorb Model XV dispersion option

**Humidifier De-Scaling Solution & Pump Kit**
Why do I need this? Scale buildup on humidifier heaters and heat exchangers acts as an insulator, reducing humidifier performance while increasing energy costs.
- De-Scaling solution removes scale more thoroughly than hand-scraping, and does not corrode the water tank, components, or welds.
- De-Scaling neutralizer is added to the water tank following the de-scaling process to bring water back to normal pH levels.
- De-Scaling pump kit greatly increases the effect that the de-scaling solution has on mineral deposits in the water tank, making the process quicker and easier.

**Vapor-logic® Controller**
- Provides comprehensive control for DrSteem GTS®, STS®, Vaporstrem®, Vapormist®, Humidi-tech®, CRUV®, and XT series
- Multi-color status LEDs to speed up troubleshooting
- Additional LED shows if power is available to the keypad and display

**Parts and Accessories**
- Solenoid
- Probe
- Flame Rod
- HSI
- Bottle*
- Controller

*SWe offer replacement bottles for competitor units*
Variable Frequency Drive (VFD)

*Availability varies by location, please call your local store.

Why Daikin VFDs are a smart choice
- Easy-to-use advanced HVAC controls
- Competitive pricing while covering nearly all HVAC applications through two-tier offering
- Same-day shipping on in-stock VFDs
- Quick ship options available on non-stocked VFDs
- Embedded serial communications standard

Applications
Daikin VFDs can be added to most motor and pump applications to reduce energy costs during low demand periods of your HVAC system. Daikin VFDs are designed and tested for use with a variety of HVAC system components.
- Rooftop units
- Air handling units
- Chilled water pumps
- Heating water pumps
- Cooling water fans
- Condenser water pumps

Utilize Daikin Variable Frequency Drives to increase your HVAC system performance and save on energy costs.

Motors

*Availability varies by location, please call your local store.

If you need it, we can supply it - not limited to only OEM motors.

Single-Phase Multi-Voltage PSC, Double-Shaft
- Direct drive motor
- Thermally protected, UL recognized, CSA and cUL certified
- Application: air moving (furnace fans, air handlers, blowers, air conditioners, exhaust fans, etc.)

Electronically Commutated Motors (ECM), Preprogrammed for Unit Ventilators
- Preprogrammed for direct factory replacement
- Select appropriate motor based on unit characteristics
- 20-30% more efficient than traditional PSC motors
- Application: air moving (Unit Ventilators and Water Source Heat Pumps)

Premium Efficient, Three-Phase, ODP, with AEGIS SGR Protection
- General purpose motor
- Ball bearings; heavy-duty steel or cast-iron frames
- Class F insulated motor with 1.15 service factor or higher that operates within Class B temperature limits at rated horsepower
- Application: fans, blowers, machine tools, energy savings where continuous or frequent duty is required
Compressors

*Availability varies by location, please call your local store.

**Scroll Compressors**

Copeland® Compressors are trusted by HVAC/R professionals worldwide for efficient, reliable performance and breakthrough innovation.

**ZP, Single & Three Phase**
- Designed for superior R-410A efficiency and performance
- Light compact design with smaller suction fitting
- Features advanced scroll temperature protection to guard from the scroll overheating
- Unmatched reliability

**Uneven Tandem, Three Phase**
- Reduced compressor on/off cycling
- Higher part-load efficiency
- Better system performance
- Unmatched reliability

**Rotary Compressors**

Tecumseh® high efficiency rotary compressors provide enhanced reliability, reduced sound and maximum flexibility with vertical and horizontal installation options for air conditioning and refrigeration applications.

**RK, Single Phase**
- 5,000 to 13,000 BTU/h
- Efficient and reliable rotary mechanism
- Low noise level
- Integrated accumulator
- Three-point mounting

**HG, Single Phase**
- 5,000 to 13,000 BTU/h
- Efficient and reliable rotary mechanism
- Low-profile horizontal design
- Low noise level
- Integrated accumulator

**LG Compressors**

LG Compressors provide meaningful and differentiated values to customers sustainability by achieving the world class eco-friendly & energy saving technologies.

**OJ, Single Phase**
- Reduced compressor on/off cycling
- Higher part-load efficiency
- Better system performance
- Unmatched reliability

**QA, Single Phase**
- Designed for superior R-410A efficiency and performance
- Light compact design with smaller suction fitting
- Features advanced scroll temperature protection to guard from the scroll overheating
- Unmatched reliability

**Hermetic Compressors**

Bristol Compressors International, LLC is committed to environmentally conscious, energy-efficient products with ozone-friendly refrigerant compressors that use fixed- and variable-frequency drive configurations.

**H22J Model, Single & Three Phase**
- High efficiency
- Low sound
- Solder suction fittings: 90° elbow
- Solder discharge fittings: straight

**H2BG Model, Three Phase**
- Reliable design
- Low compressor height
- Solder suction fittings: straight
- Solder discharge fittings: straight
4 Piece Heavy-Duty Nut Driver Set
- Through-handle, full-hollow shaft for torquing hex nuts onto threaded rod of any length
- Wrench-assist for additional torque
- Rare Earth magnetic tip holds nut in place while fastening
- Heavy duty handles and shafts exceed torque performance of regular nut drivers
- Includes 1/4”, 5/16”, 3/8” and 7/16” hex sizes

Mini Cushion-Grip Screwdriver Set
- Includes one Phillips-tip, one keystone-tip, and two cabinet-tip screwdrivers
- Tip-Ident® quickly identifies the type of screwdriver and tip orientation
- Precision tips for an exact fit and rigorous applications
- Premium chrome-plated shafts for corrosion resistance

Tradesman Pro™ Backpack
- 39 pockets for tons of tool storage
- Hard, molded front pocket protects safety glasses
- Front zipper pocket for small parts and tools
- Taller bag and interior pockets allow for long screwdrivers
- Fully molded bottom protects from the elements
- 1680d ballistic weave for durability
- Shoulder straps with extra padding and handles for easy carrying

600A AC Clamp Meter with Temperature
- 600V AC Current, 600V AC Voltage, 600V DC Voltage
- Measures temperature, frequency, and capacitance
- 40MΩ Resistance Range, 100kHz Frequency, 100μF Capacitance
- -4 to 1832°F Temperature Range (-20° C to 1000° C)

Nu-Calgon specializes in chemical products for the HVAC/R aftermarket and has been an industry leader for over 70 years. The complete line of products include coil cleaners, leak sealants, air purifiers and refrigeration oils, water treatment, ice machine maintenance, and other specialty applications.
Steel Braided Hoses & Accessories

CUSTOM SIZES AVAILABLE

Fire Retardant Hoses
- Fixed end x Swivel end with JIC MNPT adapter
- Fire rated to meet local building codes
- Inner tube is EPTF - white santoprene with UL-94 VO fire rating
- Outer braid is 302/304 stainless steel wire
- Temperature range -40°F to 212°F (-40° C to 100° C)
- Application: for use with water source heat pumps and fan coils
- Water supply and condensate applications

Fire Retardant Hose Kits
- Supply line has combination ball valve & Y-strainer with full port shut-off
- Return line has combination flow controller & ball valve with two ports
- Fire rated to meet local building codes
- Inner tube is EPTF - white santoprene with UL-94 VO fire rating
- Outer braid is 302/304 stainless steel wire
- Application: for use with water source heat pumps and fan coils
- Water supply and condensate applications

Push to Connect (PTC) Assemblies
- 1/2” (5/8” OD) & 3/4” (7/8” OD) CTS tube connection
- Tube conforms to ASSE 1061 & IAPMO listed
- Working pressure up to 200 psi
- Temperature range 0°F to 200°F (-17.78° C to 93.33° C)
- Inner tube is EPTF - white santoprene with UL-94 VO fire rating
- Approved tubing: ASTM B88 tube types K, L, M drawn copper tube and annealed copper tube, CPVC water tube per ASTM D2846-2846M-90
- Standard hose lengths: 12”, 18”, 24”, 36” and custom: 6” minimum with 1” increments
- Minimum bend radius: 2.5”

Quick-Sling, LLC by DiversiTech Corp., a leading manufacturer and supplier of HVAC/R parts and accessories. The company provides wholesalers and contractors with greater accessibility to this suite of products that makes installation of air handlers and furnaces quicker, more affordable, more reliable and safer.

Quick-Sling offers a 2-year warranty on steel and workmanship; Quick-Sling products are coated in accordance with ASTM D3451-96
Refrigerants

Features:
- R-22 and R-134A available in 30 and 125 lbs cylinders
- R-410A available in 25 lbs cylinders

Authorized Chiller Parts Distributor

HTS Ontario Parts is fully-stocked with a complete line of quality Daikin parts for your chillers.

MicroTech® II Controls for Rooftop and Self-Contained Units

Thermostats

Honeywell T Series thermostats have the features you need for comfort and energy savings. All feature Honeywell’s engineering excellence that’s delivered comfort and efficiency for more than 100 years, and all are backed by a 5-year warranty for peace of mind.

Honeywell

Features:
- ENERGY STAR Certified
- Wi-Fi touchscreen
- Optional dual fuel and ventilation
- Flexible scheduling or geofence technology

T6 Pro Z-Wave
- Large, modern and intuitive touchscreen display
- Easy wiring with the UWP mounting system
- Seamless homeowner hand-off, letting you move on to your next project

Lyric T6 Pro Wi-Fi
- Push-button programmable
- Optional dual fuel
- Flexible scheduling

T6 Pro Hydronic
- Can be used to control air and floor temperature or both
- Flexible A/AF/F control capabilities

T4 Pro
- Push-button programmable
- Flexible scheduling

T1 Pro
- Non-programmable
- Available in both 1H/1C (heat and cool models) and 1H or 1C only model

*Availability varies by location, please call your local store.
### Electrical

- Electrical interconnect devices accommodating wire sizes from 22 AWG through 4/0 AWG
- Heavy duty copper lugs and connectors that vary in size from 6 AWG to 250 MCM
- High temperature terminals and special adapters for extreme or sensitive environments
- Nylon cable ties for tying or bundling wires and cables or securing devices of any kind
- Specialty items for routing, identifying and insulating cables and protecting wires from abrasion
- Heat shrinkable tubing that provides insulation, sealing, strain relief and mechanical protection
- New generation of heat shrinkable terminals with sealing technology to protect against environmental problems
- Broad range of application tools and accessories for quick and reliable installations

**Benefits of a new Aurum Retrofit**

With standard, and customizable sizing, Aurum Manufacturing’s new fan coil replacement chassis is suitable for almost every high-rise built within the last 50+ years. New Aurum Retrofits are designed to meet and exceed operations of previous fan coil systems by:

- Increasing the airflow in your home
- Increasing energy efficiency in fan coil operations
- Coming equipped with features that increase chance of detecting floods from overflows in drain pan
- Enhancing and creating optimal comfort in your home
- Reducing operation noise
- Lowering fan coil energy consumption
- Decreased air pressure drops with new coil
- Larger surface area of coil

*Availability varies by location, please call your local store.

Gates Corporation is a leading manufacturer of application-specific fluid power and power transmission solutions. Gates is driven to push the boundaries of material science to engineer products that continuously exceed expectations.
Thank you for showing interest in the HTS Parts & Aftermarket department!

HTS Parts & Aftermarket have been working hard to deliver the best HVAC parts customer service in the city. We have access to the widest variety of HVAC parts and equipment. Stop by HTS Parts & Aftermarket - we will make sure you get what you need to get the job done right. Please see below list of critical parts we stock, along with list of HVAC brand we supply.

**Critical Parts:**
- Coils
- Compressors
- Filters
- Control boards
- Thermostats
- Sensors
- Belts
- Bearings
- Sheaves
- Motors
- Capacitors
- Contactors
- Fuses
- Transformers
- Disconnects
- Fan Wheels
- Actuators
- Valves
- Hoses
- Vibration Isolation

**Air Handling/ Ventilation:**
- Daikin/McQuay
- Loren Cook
- Herman Nelson
- IEC Fan Coils
- Acoustiflo
- Addison
- Aermec
- ClimaCool
- Airedale
- Epsilon
- Fantech
- Filtrete
- HAAKON
- Halton
- Innovent
- Plasticair
- Rieflus
- Tecogen
- Temppeff
- United Cool Air

**Heating:**
- Schwank
- Modine
- Heatcraft
- Sigma
- Viessmann

**Water Source Heat Pumps:**
- Daikin/McQuay
- Omega

**PTAC’s/ Self Contained Units:**
- Applied Comfort
- Napoleon

**Humidification:**
- Dristeam

**Controls:**
- Alerton
- TSI Controls
- Honeywell
- Ecobee
- Belimo

**VFD’s:**
- Danfoss
- ABB

**Other Products:**
- AAF Filters
- Kinetics Noise Control
- Lakos
- Separators
- Biddle Air Curtains
- Ercan
- Enersheid
- Snyder General
- Singer
- Ductsox
- Chutes
- A.O. Smith
- Johnson Controls
- Copeland
- Tecumseh
- Erie
- Bristol Compressors

**Hot Water Tanks:**
- PVI
