Twin City Fans & Blowers: An industry leading designer that offers centrifugal fans and blowers, axial fans, and power roof ventilators.

Krueger HVAC: Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

KE Fibertec: KE Fibertec North America Inc designs and sells textile ventilation systems for draft free air distribution in all types of rooms and applications.

Neptronic: With an emphasis on innovative thinking and design, Neptronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

Ventaire: Designs and manufactures source capture ventilation systems and components for extracting noxious fumes and gases in commercial and industrial applications.

Air Balance: Fire and smoke dampers (UL Life Safety Products), control dampers, louvers, equipment rails, gravity vents and rooftop ventilation penthouses.
A Mestek Company.

Sterling: Major producer of CSA certified gas fired and hydronic unit heaters for over 40 years.

Qmark/Marley/Berko: Electric unit, wall, baseboard, ceiling, and convection heaters, air curtains, and circulation fans.

Triatek: Offers a complete line of building control products, including lab exhaust valves, that seamlessly integrate with most building automation systems.

APG, Parts, Service & BAS

HTS APG

We distribute everything from grilles, registers, diffusers to VAV and FPB terminal units, high quality commercial fans, to textile ventilation systems, automatic flow regulators, chilled beams, dust collectors, and duct heaters - to name a few. We do all of this while making your life easier by providing quality service through accurate equipment selection and estimation, thorough project management, and offering on-going training at our facilities.

HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.

HTS Service

We provide service, repair and replacement for all commercial HVAC systems.
