1) CHILLERS - Air-cooled and water-cooled packaged and modular chillers for commercial HVAC and industrial process cooling applications. Thermal Storage

2) HTS CONTROLS - Supply and installation of DDC controls packages for commercial, residential and industrial process markets. Building pressure monitoring and control. Variable Speed Drive motor controls

3) CUSTOM AIR HANDLING - Air handling units for indoor and outdoor applications. Heating, cooling, humidity control, energy recovery and ventilation

4) PACKAGED ROOFTOP HVAC - Air and evaporative cooled heating and cooling units with humidity controls in VAV and constant volume. Capacity range of 5 to 150 tons

5) CHILLER / BOILER PACKAGES - Design, and manufacture of custom heat transfer packages including pump stations, heating, cooling and data center applications. Central heat and power plants

6) HUMIDITY CONTROL - Custom desiccant and refrigerant dehumidification packages. Adiabatic, Steam, electric and gas fired humidifiers. Pool dehumidifiers. Computer room units

7) HEATING PRODUCTS - Air rotation units, steam infrared, Architectural hydronic products. Condensing boilers and DHW heaters. Electric boilers. Waste water heat recovery

8) HYDRONIC SYSTEMS - Filters for industrial and commercial water filtration applications. Commercial pumps, heat exchangers and hydronic components for heating and cooling systems

9) VENTILATION / FANS - Commercial fans and blowers. Architectural air dispersion and diffusion systems. Silencers and acoustic enclosures. Isolation and Seismic. UV lights. High-efficiency filters. Dust collectors

10) ENERGY RECOVERY - Enthalpy Wheels and heat pipes. DOAS units

11) UNITARY AND TERMINAL SYSTEMS

Ductless mini split system, Unit ventilators, PTAC's, Heat pumps and VRF systems with multiple evaporators for energy efficient retrofits and new construction applications. Chilled Beams, radiant cooling and fan coils.
