VRF air conditioning system  
design, installation & service

**Daikin AC:** Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

Parts,  
Service & BAS

## HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

## HTS Service

We provide service, repair and replacement for all commercial HVAC systems!

Delivering Real Success®

Heat Transfer  
Solutions

**Daikin AC:** World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. Efficiency R-410a systems. DX line sizing software available.

**Daikin Applied:** Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

**Aerofin:** Aerofin is a leading manufacturer of spiral fin and plate fin heat exchanger coils and related heat transfer equipment.

**AcoustiFLO:** Manufacturers custom plenum fan solutions which are AMCA 210 and AMCA 301 certified. Provides a technological breakthrough in engineered flow path for plenum fans.

**Alliance Air Products:** An industry leader with a team of engineers focused on practical solutions for all aspects of air handling unit designs.

**American ALDES:** : Packaged Energy Recovery Ventilators using Enthalpy Core or Energy Wheel. Available with DX or CW cooling coils, and electric or HW heat. Sizes range from 95CFM - 11,000CFM.

**Armstrong Humidifiers:** Conditioned steam, steam-to-steam, electric steam and gas-fired steam humidifiers to protect critical equipment and material in museums, manufacturing facilities, schools, office buildings and more.

**CORE Energy Recovery Solutions:**High performance Energy Recovery Ventilator (ERV) Cores for the HVAC industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

**Continual Energy Inc.:** Solves critical building energy needs. From HVAC system optimization technology, to energy studies, performance guarantees and financing to monitoring based commissioning technology, we deliver and sustain energy and cost savings across various building applications.

**Danfoss:** Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

**Dynamic Air Quality Solutions:** Innovative, technologically advanced and affordable air quality solutions optimized to reduce energy consumption. Products include active media, sterile sweep UV and air purification systems.

**Epsilon:** Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

**Energy Labs:** Premium manufacturer of custom air handling, air cooled, and evaporative cooled roof top DX units, Indirect and Direct Evaporative Cooling and energy recovery systems.

**Global Plasma Solutions:** GPS provides patent pending, cold plasma air purification technology that can be used as a substitute for UV lights and carbon products, but without the replacement costs and maintenance associated with those systems. GPS when used in combination with ASHRAE Standard 62 IAQP, allows a reduction in outside air by up to 75% in new and retrofit applications.

**Halton:**Specializes in indoor climate and indoor environment products, services and solutions for commercial kitchens. Halton's aim is to create comfortable and safe indoor environments that have energy-efficient and sustainable life cycle.

**Haakon Industries:** University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

**Heat Pipe Technologies:** Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

**Johnson Air Rotation:** Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs. Low operating costs. Tight temperature control.

**Krueger HVAC:** Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

**Lennox:** Leading provider of high-efficiency packaged rooftop units, VRF systems, split systems, HVAC controls, furnaces and indoor air quality products for the light commercial industry.

**Munters/DesChamps:** The name in dehumidification for over 100 years. Commercial line for economical solutions to humidity problems in all project sectors. Desiccant dehumidifiers in all cfm ranges. DesChamps develops innovative solutions for energy recovery, outside air conditioning, improved indoor air quality, and air-to-air heat exchangers.

**Motivair:**Motivair is a leading supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

**Neptronic:** With an emphasis on innovative thinking and design, Nepronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

**PoolPak:** A leader in providing indoor pool dehumidification for over 25 years.

**Seasons4:** Custom Packaged Rooftops and Air Handler Units with superior performance and quality. These custom HVAC systems are offered for new construction and replacements, each engineered to specific performance requirements.

**Siemens Control:** Open-protocol DDC Controls System with standard Internet access capabilities and full range of DDC Controllers for system configuration flexibility. Has a full line of Siemens Building Technologies HVAC products.

**STULZ:** Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

**Swegon:** A trusted leader in developing and manufacturing solutions for the ideal indoor climate with air handling units, air distribution, and room units.

**Twin City Fans & Blower:** Twin City Fans & Blower is an industry leading designer that offers centrifugal fans and blowers, axial fans, and power roof ventilators.

**Williams Comfort:** A nationwide leader in quality heating, ventilation, and air conditioning products including gas and electric furnaces, fan coils, air handlers, dehumidifiers, and air curtains.
