

Replacement chassis is physically identical to existing units. Plug-n-play connections provide a quick and easy drop-in replacement.

The optional Omega electrical package replaces existing components to bring modern features to old equipment.

SINGER/MCQUAY HCA REPLACEMENT HEAT PUMPS

Comes with an electrical box drop-in replacement that includes a modern microprocessor controller.

WHALEN VI REPLACEMENT HEAT PUMPS

The Omega VI chassis units feature modern components, chassis vibration isolation base for quiet operation and matching electrical & water connections for a quick and easy installation.

CLIMATEMASTER 816 REPLACEMENT HEAT PUMPS

Available in several wiring configurations for ultimate versatility including optional electrical box replacement kit featuring our Omega advanced microprocessor controller.

JOHNSON CONTROLS VSCS REPLACEMENT HEAT PUMPS

With matching harness connectors to work with existing microprocessor controls and factory tested & fully charged makes Omega the preferred replacement option.

MCQUAY VF REPLACEMENT HEAT PUMPS

Provides contractors with a simple drop-in replacement with the added feature of modern advanced microprocessor control capabilities.

OMEGA HRP REPLACEMENT HEAT PUMPS

Your OEM replacement for Enerzone and Omega units. Features matching harness connectors to work with existing microprocessor controls.

STANDARD FEATURES

- ☐ Factory charged and tested
- ☐ High efficiency compressors
- ☐ High and Low-Pressure safety switches
- ☐ Noise Cancelling Double Isolated Base
- ☐ Thermal Expansion Valve (TXV)
- ☐ R-410A Environmentally friendly refrigerant
- ☐ Refrigerant service access ports
- ☐ 1 Year Parts and 5 Year Compressor Warranty

SAFETY

Replacement chassis comes standard with high-pressure and low-pressure safety switches to protect unit from unwanted operating conditions. Optional Omega electrical package control option features water temperature sensors, advanced unit monitoring and diagnostics.

OPTIONS & ACCESSORIES

- ☐ Full Electrical Package with Microprocessor Controller
- ☐ Auto-Flow Balancing valve
- ☐ Auto Shut-Off Control valve
- ☐ Epoxy Coated Air Coil for Formicary Corrosion Protection

COMFORT & RELIABILITY

Quiet and reliable operation from the use of quality components and construction. High-efficient compressors and built-in noise cancelling features ensures silent unit operation. All Replacement Chassis units come with our standard 1 year parts and 5 year compressor warranty.
