At HTS, we believe your success is our success. We've grown significantly since our founding in 1992 and now have 16 locations across North America. We attribute our significant growth to our single focus on creating success for all of those involved in a project's HVAC selection, design, purchase, installation and maintenance. Architects, engineers, building owners, general contractors, mechanical contractors and facility maintenance teams turn to HTS for Real Solutions. We understand our customer's unique viewpoints, needs and concerns. We provide insight and manage projects so everyone achieves their pre-established goals. We Deliver Real Success.

WHY HTS SERVICE? WE KNOW HVAC MAINTENANCE!

HTS service provides real solutions for reduced maintenance and timely, reliable repairs. We offer superior service, repair and replacement on all brands of commercial HVAC equipment and VFDs – not just the ones we sell.

PREVENTATIVE SERVICE WE CAN MAINTAIN IT!

HTS Service specializes in manufacturer recommended preventative maintenance programs. Extend the life of your equipment and avoid costly and expensive repairs.

We also offer technical support and training for end-users and contractors.

SERVICE & REPAIRS

Our factory trained technicians are licensed to repair your equipment. Our factory trained technicians will make sure the job is done right! HTS has 60 trucks available 24/7 across Ontario!

EQUIPMENT RETROFIT & REPLACEMENT

Concerned about energy savings and conservation? HTS Service can retrofit or replace your existing equipment to meet your future energy need.

FACTORY TRAINED TECHNICIANS

Our service technicians are factory trained and certified for service, troubleshooting and maintenance on many major product lines such as AAON, Aermec, Airdale, AQC, CDI, Daikin Applied (formerly McQuay), Daikin AC, Daikin VRV, Dectron, DriSteem, Haakon, Innovent, Loren Cook, Modine, Omega, PVI, Stulz, Tempeff, United Coolair, Viessman and Xylem.

OUR CONTROLS & ENERGY RETROFITS CAN MAXIMIZE YOUR BUILDING'S PERFORMANCE!

Our Controls Service Team consists of mechanics extensively trained in controls. We are able to provide our clients with reduced energy costs, extended equipment life and precise temperature and humidity control.

WE DO IT ALL

24/7 Service Response

We respond to your service calls 24/7.

Open Source/Open Protocol

HTS offers the native BACNET Alerton and Distech Controls product lines. We can control the most advanced systems at a competitive price.

An innovation leader in energy management solutions, Distech Controls provides unique building management technologies and services that optimize energy efficiency and comfort in buildings, all the while reducing operating costs. Each of these products is fully tested before it leaves the factory, ensuring optimum performance and reliability for fully integrated systems.

Training

HTS Controls Service offers training for our end users.

Advanced Floorplans/Dashboard Displays

Monitor your building's activities.
