Heat Transfer Solutions

Daikin AC: World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. Efficient R-410a systems. DX line sizing software available.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

Accutrol: Accutrol specializes in innovative airflow technologies for critical environment airflow technologies for critical environment airflow control and airflow measurement. Accutrol is an attractive energy solution versus Venturi valve technology.

Aerofin: Standard and custom HVAC coils, including innovative "split-fit" coil for tough renovation coil replacements.

Air2O: Air2O are world leaders and pioneers in advanced evaporative cooling and Hybrid Air Conditioning Technologies particularly suited to cooling large scale facilities, Data Centers and Agriculture Facilities.

Armstrong Humidifiers: Conditioned steam, steam-to-steam, electric steam and gas-fired steam humidifiers to protect critical equipment and material in museums, manufacturing facilities, schools, office buildings and more.

Halton: Specializes in indoor climate and indoor environment products, services and solutions. Halton's aim is to create comfortable and safe indoor environments that have energy-efficient and sustainable life cycles.

Big Ass Fans: The world's leading researcher, designer and manufacturer of HVLS (High Volume Low Speed) fans focused on delivering purpose-built, cost-effective, energy-efficient commercial & industrial comfort solutions.

ChangeAir: Unit ventilators. Engineered excellence for greener classrooms.

CORE Energy Recovery Solutions: High performance Energy Recovery Ventilator (ERV) Cores for the HVAC industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

Direct Coil: Direct Coil is an advanced manufacturer of custom heat transfer products with enormous capabilities

Dynamic Air Quality Solutions: Innovative, technologically advanced and affordable air quality solutions optimized to reduce energy consumption. Products include active media, sterile sweep UV and air purification systems.

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

GPS Air: GPS technology helps clean indoor air without producing harmful levels of ozone or other byproducts. All GPS needlepoint bipolar ionization (NPBI™) products are UL certified and CE compliant. Through NPBI, GPS products help improve the air by reducing airborne particles including certain odors, viruses, and bacteria.

IMI Flow Design: A brand leader in manual & automatic flow control devices, IMI Flow design delivers flexibility, energy savings and high performance in solutions for HVAC systems, including potable water applications. Products and technical support of the highest quality and delivery times that promptly meet your project

Haakon Industries: University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

Heat Pipe Technologies: Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

Jetson: Jetson is an engineering-driven manufacturer of Water-Cooled Chillers, Air-Cooled Chillers, and condensing units. The full line of Jetson highly-efficient commercial products are offered exclusively through representatives. These products range in capacity from 10 to 600 tons.

Johnson Air Rotation: Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs. Low operating costs. Tight temperature control. guaranteed.

Krueger HVAC: Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

Legacy Chiller Systems, Inc.: Process chillers for industrial/hospital applications.

Linea: Linea Screen solutions by ModWerks offer an attractive and sage way to protect your equipment. A wide variety of panel materials allows us to treat each application specifically - sound reduction, visual blocking, open-air screening, and aesthetic appeal. ModWerks now featuring DeepCool vertical air handlers.

Modine Heatcraft: . Modine Manufacturing Company designs, manufactures, and tests heat transfer products for a wide variety of applications and markets. Their Heatcraft® heat transfer brand is well-recognized globally for quality construction, exact fit, and long-life operation.

Motivair: A globally recognized supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

Neptronic: With an emphasis on innovative thinking and design, Neptronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

Oxygen8: Oxygen8 is a clean energy technology company developing products that improve the health, comfort and energy efficiency of buildings.

PoolPak: A leader in providing indoor pool dehumidification for over 25 years.

Petra Engineering Industries: Petra was founded in 1987 with a broad vision to produce a wide variety of HVAC equipment that meets a diversity of application requirements catering to the worldwide market. Petra offers a wide range of products including air handlers, chillers, dry coolers, exhaust fans, split units, and data center equipment.

Seasons4: Custom Packaged Rooftops and Air Handler Units with superior performance and quality. These custom HVAC systems are offered for new construction and replacements, each engineered to specific performance requirements.

Swegon: Offering all you need to create a world class indoor climate - from the right system and the best products to dedicated support and reliable operations.

Tecogen: Natural gas driven chillers that provide building owners with a reliable, proven, efficient, and cost-effective alternative to conventional electric motor-powered chillers.

ThermoPlus: Provides quality, innovative, high performance products carefully engineered for better indoor air. offering heating, cooling, dehumidification, filtration and energy recovery solutions for commercial, residential and industrial applications chillers.

Thermotech: Thermotech Enterprises, Inc. is the industry leader in the manufacturing and installation of energy recover wheels, heat wheels, enthalpy wheels, and energy recovery wheel replacement systems.

Tranter: Tranter provides the world's largest range of Plate Heat Exchangers and Welded Heat Exchangers.

UVDI: Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

VRF air conditioning system
design, installation & service

Daikin AC: Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

Parts,
Service & BAS

HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

HTS Service

We provide service, repair and replacement for all commercial HVAC systems!

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.
