Heat Transfer
Solutions

Daikin AC: World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. Efficiency R-410a systems. DX line sizing software available.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more. Formerly McQuay International.

ACME FANS: Engineering, testing and manufacturing ventilation equipment for commercial, industrial, agricultural, horticultural and OEM markets for 80 years.

AcoustiFLO: Manufacturers custom plenum fan solutions which are AMCA 210 and AMCA 301 certified. Provides a technological breakthrough in engineered flow path for plenum fans.

Aerofin: Aerofin is a leading manufacturer of spiral fin and plate fin heat exchanger coils and related heat transfer equipment.

American ALDES: : Packaged Energy Recovery Ventilators using Enthalpy Core or Energy Wheel. Available with DX or CW cooling coils, and electric or HW heat. Sizes range from 95CFM - 11,000CFM.

Alliance Air Products: An industry leader with a team of engineers focused on practical solutions for all aspects of air handling unit designs.

Armstrong Humification Solutions: As your thermal utility partner, Armstrong can satisfy your industry's most unique requirements while helping you improve efficiency and reduce energy consumption and emissions.

Belimo: Belimo is the global market leader in the development, production, and marketing of field device solutions for controlling heating, ventilation and air conditioning

Big Ass Fans: The world's leading researcher, designer and manufacturer of HVLS (High Volume Low Speed) fans focused on delivering purpose-built, cost-effective, energy-efficient commercial & industrial comfort solutions.

Bitzer: Refrigeration and air conditioning technologies are key elements of our world. The Bitzer Group has been making a contribution with innovative products and services by promoting development in compressor technology for over 86 years.

Continual: Solves critical building energy needs. From HVAC system optimization technology, to energy studies, performance guarantees and financing to monitoring based commissioning technology, we deliver and sustain energy and cost savings across various building applications.

CORE Energy Recovery Solutions: High performance Energy Recovery Ventilator (ERV) Cores for the HVAC industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

Energy Labs Inc: Energy Labs is the premium manufacturer of custom air handling, air cooled, and evaporative cooled roof top DX units, indirect and direct evaporative cooling and energy recovery systems.

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

Fieldpiece: Provides instruments that HVACR professionals can trust to help them do more. Analog field gauges, combustion testers, leak detectors, hoses, and more.

Global Plasma Solutions: GPS provides patent pending, cold plasma air purification technology that can be used as a substitute for UV lights and carbon products, but without the replacement costs and maintenance associated with those systems.

Haakon Industries: University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

Halton: Specializes in indoor climate and indoor environment products, services and solutions for commercial kitchens. Halton's aim is to create comfortable and safe indoor environments that have energy-efficient and sustainable life cycle.

Heat Pipe Technologies: Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

IMI Flow Design: A brand leader in manual & automatic flow control devices, IMI Flow design delivers flexibility, energy savings and high performance in solutions for HVAC systems, including potable water applications. Products and technical support of the highest quality and delivery times that promptly meet your project

Johnson Air Rotation: Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs. Low operating costs. Tight temperature control. Guaranteed.

Lennox: Leading provider of high-efficiency packaged rooftop units, VRF systems, split systems, HVAC controls, furnaces and indoor air quality products for the light commercial industry.

Krueger HVAC: Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

Motivair: Motivair is a leading supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

Neptronic: With an emphasis on innovative thinking and design, Neptronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

Poolpak: A leader in providing indoor pool dehumidification for over 25 years.

Petra Engineering Industries: Petra was founded in 1987 with a broad vision to produce a wide variety of HVAC equipment that meets a diversity of application requirements catering to the worldwide market. Petra offers a wide range of products including air handlers, chillers, dry coolers, exhaust fans, split units, and data center equipment.

Seasons4: Custom Packaged Rooftops and Air Handler Units with superior performance and quality. These custom HVAC systems are offered for new construction and replacements, each engineered to specific performance requirements.

Siemens Controls: Open-protocol DDC Controls System with standard Internet access capabilities and full range of DDC Controllers for system configuration flexibility. Has a full line of Siemens Building Technologies HVAC products.

STULZ: Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

Swegon: Offering all you need to create a world class indoor climate - from the right system and the best products to dedicated support and reliable operations.

UVDI: Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

Veto Pro Pac: Veto Pro Pac tool bags are designed for technicians and tradesmen who consider themselves professionals, take pride in their work and appreciate high quality tools and tools bags that can stand up to the rigors of their daily work.

Williams Comfort: A nationwide leader in quality heating, ventilation, and air conditioning products including gas and electric furnaces, fan coils, air handlers, dehumidifiers, and air curtains.

VRF air conditioning system
design, installation & service

Daikin AC: Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

Parts,
Service & BAS

HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs. We can find any part your system requires!

HTS Service

We provide service, repair and replacement for all commercial HVAC systems!

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.
