Heat Transfer
Solutions

Daikin AC: World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. Efficiency R-410a systems. DX line sizing software available.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

Petra Engineering Industries: Petra was founded in 1987 with a broad vision to produce a wide variety of HVAC equipment that meets a diversity of application requirements catering to the worldwide market. Petra offers a wide range of products including air handlers, chillers, dry coolers, exhaust fans, split units, and data center equipment.

AAF International: AAF designs advanced air filtration systems and technology to give you more control over the air inside commercial and industrial facilities.

Aerofin: Aerofin is a leading manufacturer of spiral fin and plate fin heat exchanger coils and related heat transfer equipment.

Accutrol: Accutrol specializes in innovative airflow technologies for critical environment airflow technologies for critical environment airflow control and airflow measurement. Accutrol is an attractive energy solution versus Venturi valve technology.

AcoustiFLO: Manufacturers custom plenum fan solutions which are AMCA 210 and AMCA 301 certified. Provides a technological breakthrough in engineered flow path for plenum fans.

Air2O: Air2O designs and manufactures mission-critical cooling systems for data centers, utilizing economizer, evaporative cooling technologies, immersion, chilled water and DX technologies.

Apreco: Apreco Limited is the market leader in innovation design and supply of Air Pressure Control Vents and Stabilizers used in applications throughout hospitals, in operating theaters, cleanrooms, for gas fire suppression and protected fire routes as well as specialist applications.

Big Ass Fans: The world's leading researcher, designer and manufacturer of HVLS (High Volume Low Speed) fans focused on delivering purpose-built, cost-effective, energy-efficient commercial & industrial comfort solutions.

Blue Frontier: Blue Frontier delivers Moisture Removal Efficiency DOAS at more than 3X the proposed ASHRAE standard. They provide unparalleled sustainability benefits by eliminating the use of high GWP refrigerants, storing renewable energy and slashing electricity consumption.

CORE Energy Recovery Solutions: High performance Energy Recovery Ventilator (ERV) Cores for the HVAC industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

Direct Coil: Direct Coil is an advanced manufacturer of custom heat transfer products with enormous capabilities. Products include fluid coolers, custom coils, and stock coils.

Distech Controls: A global leader in building automation and energy management solutions, Distech Controls provides a complete and unified solution for HVAC, lighting, and access control.

Energy Labs Inc: Energy Labs is the premium manufacturer of custom air handling, air cooled, and evaporative cooled roof top DX units, indirect and direct evaporative cooling and energy recovery systems.

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

Güntner: A leading manufacturer in heat transfer technology. The Güntner Group stands for innovative and efficient products.

GPS Air: GPS technology helps clean indoor air without producing harmful levels of ozone or other byproducts. All GPS needlepoint bipolar ionization (NPBI™) products are UL certified and CE compliant. Through NPBI, GPS products help improve the air by reducing airborne particles including certain odors, viruses, and bacteria.

Haakon Industries: University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

Halton: Specializes in indoor climate and indoor environment products, services and solutions for commercial kitchens. Halton's aim is to create comfortable and safe indoor environments that have energy-efficient and sustainable life cycle.

Heatcraft: Provides superior refrigeration products, including evaporators, condensing units, condensers, packaged systems, and refrigeration controls, all through superior innovation.

Heat Pipe Technologies: Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

IMI Flow Design: A brand leader in manual & automatic flow control devices, IMI Flow design delivers flexibility, energy savings and high performance in solutions for HVAC systems, including potable water applications. Products and technical support of the highest quality and delivery times that promptly meet your project.

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

Innovent: Custom manufacturer of commercial and industrial HVAC equipment including 100 percent outside air units, rooftop units, wheel and flat plate energy recovery units, gas heat and cooling, UL listed electric heat, all aluminum units or other special casing construction and sectionalized equipment.

Krueger HVAC: Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

Linea: Linea Screen solutions by ModWerks offer an attractive and sage way to protect your equipment. A wide variety of panel materials allows us to treat each application specifically - sound reduction, visual blocking, open-air screening, and aesthetic appeal. ModWerks now featuring DeepCool vertical air handlers.

Motivair: Motivair is a leading supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

Neptronic: With an emphasis on innovative thinking and design, Nepronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

Poolpak: A leader in providing indoor pool dehumidification for over 25 years.

Powrmatic: Powrmatic offers a variety of customized, energy-saving commercial and industrial heating units from 200,000 to 4,000,000 BTU & cooling units from 20 to 250 tons that improve employee comfort & your bottom line.

Q-Pac: Q-PAC has been an industry leading ECM fan array solution for over 5 years, bringing ECM fans to the retrofit and air handling unit market. With Q-PAC's passion for ECM fan arrays, we bring new options and technologies to the market faster than any other solution.

RAE Coils: RAE Coils has a strong focus on quality. This is evident by a product that meets your dimensions, performs according to your specifications, and arrives on time. Their quality control is not a "department," it is a way of doing business.

Siemens Control: Open-protocol DDC Controls System with standard Internet access capabilities and full range of DDC Controllers for system configuration flexibility. Has a full line of Siemens Building Technologies HVAC products.

STULZ: Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

Swegon: Offering all you need to create a world class indoor climate - from the right system and the best products to dedicated support and reliable operations.

Tecogen: Natural gas driven chillers that provide building owners with a reliable, proven, efficient, and cost-effective alternative to conventional electric motor-powered chillers.

Thermoplus: Thermoplus offers heating, cooling, dehumidification, filtration and energy recovery solutions for commercial, residential and industrial applications.

UVDI: Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

Viessmann: One of the world's leading manufacturers of hot water boilers and heating systems. Available in a wide range of sizes from 21 MBH to 6000 MBH.

*VRF air conditioning system
design, installation & service*

Daikin AC: Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

Parts,
Service & BAS

HTS Parts *(Carrollton only)*

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.

HTS Service

We provide service, repair and replacement for all commercial HVAC systems!
