Heat Transfer Solutions

Daikin AC: World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. Efficient R-410a systems. DX line sizing software available.

Daikin Applied: Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

Aerofin: Standard and custom HVAC coils, including innovative "split-fit" coil for tough renovation coil replacements.

AAF International: One of the world's largest manufacturers of commercial and industrial air filters. AAF makes a wide variety of products for removing and controlling airborne particulates and gaseous contaminants.

AcoustiFLO: Manufacturers custom plenum fan solutions which are AMCA 210 and AMCA 301 certified. Provides a technological breakthrough in engineered flow path for plenum fans.

Accutrol: Accutrol specializes in innovative airflow technologies for critical environment airflow technologies for critical environment airflow control and airflow measurement. Accutrol is an attractive energy solution versus Venturi valve technology.

Alliance Air Products: An industry leader with a team of engineers focused on practical solutions for all aspects of air handling unit designs.

American ALDES: American ALDES Ventilation Corporation is the premier manufacturer of ventilation products and systems for commercial applications. American ALDES products are designed for superior airflow control, energy-efficient performance, and a healthy indoor environment.

Armstrong Humidifiers: Conditioned steam, steam-to-steam, electric steam and gas-fired steam humidifiers to protect critical equipment and material in museums, manufacturing facilities, schools, office buildings and more.

Antrum: AntrumX™ is a centralized indoor air quality monitoring solution. Their award-winning technology delivers more accurate and consistent data than wall-mounted sensors, allowing building managers to save on energy and maintenance costs while creating healthier, more efficient buildings.

Big Ass Fans: The world's leading researcher, designer and manufacturer of HVLS (High Volume Low Speed) fans focused on delivering purpose-built, cost-effective, energy-efficient commercial & industrial comfort solutions.

Blue Frontier: Blue Frontier delivers Moisture Removal Efficiency DOAS at more than 3X the proposed ASHRAE standard. They provide unparalleled sustainability benefits by eliminating the use of high GWP refrigerants, storing renewable energy, and slashing electricity consumption.

CORE Energy Recovery Solutions: High performance Energy Recovery Ventilator (ERV) Cores for the HVAC industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

Continual Energy Inc.: Solves critical building energy needs. From HVAC system optimization technology, to energy studies, performance guarantees and financing to monitoring based commissioning technology, we deliver and sustain energy and cost savings across various building applications.

Danfoss: Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU

Epsilon: Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

Energy Labs: Premium manufacturer of custom air handling, air cooled, and evaporative cooled roof top DX units, Indirect and Direct Evaporative Cooling and energy recovery systems.

Evolve Power Generation: Patented technology for scalable power generation solutions using multiple engines and onboard paralleling to increase resiliency and runtime, minimize footprint, optimize efficiency, and reduce first cost and operational costs. Natural gas and diesel fuel packages can be configured with custom sound and weatherproof enclosures, custom fuel tanks, and integral operator workspace. Customizable dashboards can be integrated into Building Automation Systems or serve as standalone monitoring systems. All products are made in the USA.

GPS Air: Our technology helps clean indoor air without producing harmful levels of ozone or other byproducts. All GPS needlepoint bipolar ionization (NPBI™) products are UL certified and CE compliant. Through NPBI, GPS products help improve the air by reducing airborne particles including certain odors, viruses and bacteria.

Halton: Specializes in indoor climate and indoor environment products, services and solutions for commercial kitchens. Halton's aim is to create comfortable and safe indoor environments that have energy-efficient and sustainable life cycle.

Haakon Industries: University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

Heat Pipe Technologies: Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

International Environmental (IEC): Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

IMI Flow Design: A brand leader in manual & automatic flow control devices, IMI Flow design delivers flexibility, energy savings and high performance in solutions for HVAC systems, including potable water applications. Products and technical support of the highest quality and delivery times that promptly meet

Johnson Air Rotation: Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs. Low operating costs. Tight temperature control. guaranteed.

Krueger HVAC: Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

Lennox: Leading provider of high-efficiency packaged rooftop units, VRF systems, split systems, HVAC controls, furnaces and indoor air quality products for the light commercial industry.

Motivair: A globally recognized supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial

Munters/DesChamps: The name in dehumidification for over 100 years. Commercial line for economical solutions to humidity problems in all project sectors. Desiccant dehumidifiers in all cfm ranges. DesChamps develops innovative solutions for energy recovery, outside air conditioning, improved indoor air quality, and air-to-air heat exchangers.

Nepronic: With an emphasis on innovative thinking and design, Nepronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

Petra: Innovative design and engineering capabilities allow Petra to deliver high quality HVAC equipment, which offers customers dexterous solutions in energy efficiency, ultra-low noise, and high standards of air quality and custom-made technologies that set new standards in the HVAC industry.

PoolPak: A leader in providing indoor pool dehumidification for over 25 years.

Seasons4: Custom Packaged Rooftops and Air Handler Units with superior performance and quality. These custom HVAC systems are offered for new construction and replacements, each engineered to specific performance

Siemens Controls: Open-protocol DDC Controls System with standard Internet access capabilities and full range of DDC Controllers for system configuration flexibility. Has a full line of Siemens Building Technologies HVAC products.

STULZ: Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

Swegon: A trusted leader in developing and manufacturing solutions for the ideal indoor climate with air handling units, air distribution, and room units.

Williams Comfort: A nationwide leader in quality heating, ventilation, and air conditioning products including gas and electric furnaces, fan coils, air handlers, dehumidifiers, and air curtains.

VRF air conditioning system
design, installation & service

Daikin AC: Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

Parts,
Service & BAS

HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

HTS Service

We provide service, repair and replacement for all commercial HVAC

HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.
